Diagnostic Procedures Performed With A Rigid Endoscope
Clarence Rawlings, The University of Georgia, 2008

Laparoscopy (Abdominal Exploratory/Biopsies)

Thoracoscopy (Thoracic Exploratory/Biopsies)

Cancer Spread To Liver

Cystoscopy (Examination/Biopsies of Urogenital System)

Bladder Calculi/Polyp

Ectopic Ureter

Rhinoscopy (Examination/Biopsies of Nose)

Video-Otoscopy (Examination/Biopsies of Ears)

Nasal Carcinoma

Nasopharyngeal Polyps
Treatments (Minimally Invasive Surgery) Performed With A Rigid Endoscope

Clarence Rawlings, The University of Georgia, 2008

**Laparoscopic**

- Incisional Gastropexy (Preventative and Treatment)
- Enterostomy Feeding Tube Placement
- Cyptorchid Castration
- Ovariohysterectomy/Ovarioectomy
- Cystopexy for Retroflexed Bladder
- Calculi Removal, Bladder Tear Repair, Bladder Polyp
- Colopexy for Recurrent Rectal Prolapse
- Gastroteny for Foreign Body Removal
- Intestinal Resection/Anastomosis
- Attenuation of Portosystemic Shunts
- Cholecystectomy/Adrenalectomy

---

**Thoracoscopic**

- Pericardial Resection for Pericardial Effusion
- Lung Lobectomy
- Persistent Right Arotic Arch
- Thoracic Duct Ligature

---

Transcervical Insemination

Endoscopic Foreign Body Removal (nose, ear, fistula, etc.)

- Cystoscopic Calculi Rx/Ectopic Ureter Laser Rx/Debulking Nasal & Urinary Cancer
- Nasal Popcorn
- Penrose Drain
Joints Examined

- Shoulder
- Elbow
- Stifle
- Hip
- Hock

Arthroscopic Treatments

- Osteochondrosis (OCD)
- Bicipital Tenosynovitis
- Fragmented Coronoid Process
- Meniscal Injuries

Biceps Tendon

OCD

Shaver

Fractured Coronoid Process
