4960H, 4970H, 4980H REQUIRED SYLLABUS

On a separate piece of paper, provide:
- student’s objectives for this course
- description of the research activity and the student’s role in the research for this course.
- total number of hours devoted to research each week (CURO Research Courses require four hours of work per credit hour).
- breakdown of how those hours will be met each week.
- list of all assignments. Courses are writing intensive, so the list of assignments must contain a clearly specified writing assignment. Assignment must conform with WIP guidelines, available on their website: http://www.wip.uga.edu/policies_guidelines.htm
- description of specific expectations for the student
- list of any research literature to be read/reviewed
- explanation of when and how frequently you will meet your research mentor and what will be discussed at those meetings.

Calculating Hours: Please note that CURO requires 4 hours of work for every 1 credit hour sought. The total number of work hours each week should reflect all work done (i.e. lab, readings, meetings, assignments, etc.) towards the research, not one aspect.
