Canine Behavioral History Form

Please read the following directions carefully:

- Please download this form, type in answers with as much detail as possible, and then email it back to behavior@uga.edu. *Handwritten forms will not be accepted*.
- There are no wrong or correct answers. Feel free to only answer that questions that apply to your pet.
- Please videotape your pet performing any problem behavior(s) before your visit. Do not put the pet, yourself, or other people or animals in danger for this recording. A video can be a great help for a precise diagnosis, especially if your pet will not show the behavior problem during the consultation. As some video files are too large to email, you may bring them to the appointment.
- It might be helpful if you draw a floor plan of your house with the sleeping and eating places of your pet.
- If more than one pet is involved in the behavior problem, please contact us. It may be beneficial to bring more than one pet to the consultation. Do not bring more than one pet without prior consent from the service.
- Please try to bring all family members involved in the daily care of your pet to the consultation.
- If your dog has shown aggression, do not bring it into the building without our permission. You may leave your dog in the car briefly while you check in and then we will escort you through a separate entrance. If you already have a basket muzzle for your dog, please bring it to the appointment so we can evaluate the fit and safety of the muzzle.
- The history form must be returned **one week** prior to your appointment. **If we do not receive your completed form one week prior to your appointment, we will automatically cancel your appointment.** Please call in advance to change your appointment if you are not able to return the form by the time it is due or if you have questions regarding the due date and time.

Thank you and we look forward to working with you and your pet(s)!

Dog Name	
Breed	
Age/Date of birth	
Sex	
Neutered? At what age?	
Weight (last known, in kg)	
Who referred you to the Behavioral Medicine Service?	

Please feel free to only answer the questions that apply to your pet's behavioral problem. Keep in mind that the more information you give us, the more efficiently we will be able to help.

	Complaint What is the main behavior problem(s) or chief complaint(s)?
2.	When did the problem first begin?
	What are the triggers for the problem? When and where does it happen? How often and under what circumstances?

4.	Describe the first incident if you remember. When and where did it occur? What exactly happened (described your dog's body language and actions). How did you react? Who else was present? Was there a change in the household, dog's routine, or any other particular circumstances at the time?
5	Describe the most recent incident in detail.
6.	Please report any other incidents that you find relevant, including the most severe incident (if not reported above):
	above).

Phone: (706) 542-1984 Email: behavior@uga.edu 7. Has there been a change in frequency, intensity, duration or appearance of the problem? 8. What has been done so far to correct the problem? Did it change the behavior? If yes, did it improve or worsen the behavior? 9. Why do you think the problem behavior occurs? 10. Are there other behavior problems? If yes, answer questions 2-10 for the other behavior problems. Please use an extra page if needed.

Phone: (706) 542-1984 Email: behavior@uga.edu

If your dog shows aggressive behavior, please complete this section. If not, skip to section II (Early History).

Aggression screen: has your dog shown aggression towards:

You? Family Members? Strangers? Other Dogs? Other Animals?

If yes, fill out the aggression screen. If no, please proceed to Section III on page 12.

Please review this list of circumstances and check all that your dog has demonstrated, even if it occurred only once. A familiar person may be a family member or anyone with whom the dog has interacted regularly, including persons coming to the household regularly. An unfamiliar person is a stranger or someone your dog sees or interacts with only occasionally.
