

Welcome to the UGA Large Animal Veterinary Teaching Hospital

Thank you for allowing us to be a part of your animal's care team! Below is more information on what to expect during your visit.

What to expect:

- As we are still observing social distancing guidelines, only faculty, staff, and current veterinary school students are allowed inside the building at this time. However, we do have a single bathroom for use upon request.
- Please be prepared that your appointment may take several hours and plan accordingly. If possible, we recommend you drop your animal off and come back to pick up at a later time. The doctor will call you to let you know when your animal is ready.
- You may drop your trailer off for the day if you decide to leave and come back. Please park as close to the curb on the far side of our front parking lot as possible. We also have a Long Term Trailer Parking Lot you may utilize that is located next to our Employee Parking Lot.
- Please have your phone handy and charged as the doctors will be calling you with updates. When we call, it may show up on your phone as “no caller ID” or “unknown.”
- At check-out time, our Financial Services Associate will be calling you for payment information if it has not already been provided.

Things to do while we care for your animal:

- While we do ask that you remain reachable by phone while your animal is with us, please feel free to explore our beautiful city of Athens while you wait. We also have several shady areas, benches, and a garden on our campus that you are more than welcome to utilize while you are here.
- If you choose to wait in our parking lot, please be aware that temperatures outside can rise quickly. Be cautious for signs of heat stroke or other heat-related illness and let us know if you need assistance.

Thank you again, and please don't hesitate to give us a call if you have any questions or concerns: (706) 542-3223.
