------------------	--	-------------------

- With the use of this permit I, Christine Lobsinger, Permittee, acknowledge that the regulated material(s) will be imported/transported within the United States in accordance with the terms and conditions as are specified in the permit. The Permittee is the legal importer/recipient [as applicable] of regulated article(s) and is responsible for complying with the permit conditions. The Permittee must be at least 18 years of age and have and maintain an address in the United States that is specified on the permit; or if another legal entity, maintain an address or business office in the United States with a designated individual for service of process; and serve as the contact for the purpose of communications associated with the import, transit, or transport of the regulated article(s). **Note: Import/Permit requirements are subject to change at any time during the duration of this permit.
- ***Materials shall be consigned directly to the permittee address specified above.
- ***Each shipment shall be accompanied by an ORIGINAL document from the producer confirming that the exported nucleic acids: 1) were subjected to standard extraction protocols upon complete lysis of cells; and 2) after extraction, the nucleic acids were not exposed to any animal-derived material.
- [This certification must CLEARLY correspond to the shipment by means of an invoice number or shipping marks or lot number or other identification method. An English translation must be provided.]
- It is incumbent upon the permittee to uphold proper biosafety procedures and protocols to protect human and animal health as per institutional policy and recommendations published in Biosafety in Microbiological and Biomedical Laboratories, current edition.
- This permit DOES NOT authorize direct or indirect exposure of or inoculation into laboratory and domestic animals, (including but not limited to: birds/poultry, cattle, sheep, goats, swine, and/or horses). Work shall be limited to *in vitro* uses only.
- Materials, derivatives, packaging, containers, and all equipment in contact with the imported products shall be sterilized or considered a biohazard and disposed of accordingly.
- Importer/permittee is responsible for obtaining any required authorization (letter or permit) from the Department of Health and Human Services, Centers for Disease Control and Prevention (DHHS, CDC). Importer to contact: (404) 718-2077.
- Imported article may be subject to regulations enforced by U.S. Customs and Border Protection (CBP). Please visit their website: <http://cbp.gov/biologicals>
- Work with the permitted material shall be performed in accordance with the condition requirements described in this permit. Subsequent distribution to another state is prohibited without prior authorization of APHIS (in the form of an interstate transport permit, written correspondence, or

-----------	---	------------

reference to an applicable guideline for no import permit required). Any change in use, treatment, disposal, and distribution within the state may require approval from the state and/or local government.

- The restrictions on this permit remain in force as long as the material is in the United States.
- This permit does not exempt the permittee from responsibility for compliance with any other applicable federal, state, or local laws and regulations.
- This permit shall not be used to transport or import of any select agents (HHS AND USDA SELECT AGENTS AND TOXINS, 7 CFR Part 331, 9 CFR Part 121, and 42 CFR Part 73).
- A copy of this permit must be included with the shipping documents. For imported materials, these documents must be presented to CBP Agricultural Specialists upon arrival at the U.S. port of arrival.

TO EXPEDITE CLEARANCES AT THE PORT OF ENTRY, BILL OF LADING, AIRBILL OR OTHER DOCUMENTS ACCOMPANYING THE SHIPMENT SHALL BEAR THE PERMIT NUMBER
