Submission of specimens for testing by the University of Georgia (UGA) Veterinary Diagnostic Laboratories constitutes a contract for delivery of test results and associated interpretations to the submitter pursuant to which the submitted specimens, as well as products, isolates, and data derived from them, become the property of UGA. UGA may return submitted specimens to submitters if prior arrangements are made with the laboratory. In the case of carcasses submitted for necropsy, remains will only be released to registered pet cremation services. By submitting diagnostic specimens, submitters agree to the laboratory's testing procedures and policies, including billing. If tests not offered or temporarily out of service are requested, specimens may be referred to another reputable laboratory and a shipping fee and test charges from the referral laboratory will be added to the submitter's bill.
